

Now you can blend your **THICKEST, MOST CHALLENGING specialty drinks in the SHORTEST POSSIBLE TIME.**

Time after time, tests show the enhanced Drink Machine MP Blender is up to three times *faster* and *five times more powerful* than other comparable commercial blenders. Such benefits mean more satisfied customers, increased repeat business – **and greater profits.**

DRINK MACHINE MP

Maximum Performance Beverage Blender

Month after Month, Year after Year
Faster, Smoother Drinks

Satisfied customers offer you **more repeat business and greater profits.**

No cavitation means no stirring, shaking or banging on the counter for a **consistently-blended drink.**

Vita-Mix
FOODSERVICE

MP

Means-Maximum Performance unmatched by any other commercial blender.

Increased blending speed, patent pending blade design, advanced container design and enhanced 2+ hp motor power.

Automatic timer lets you **set** the desired time, **walk away** and **return** to a perfectly blended drink.

Stackable Containers of impact resistant polycarbonate **save** precious counter space.

Perfect drink consistency. Time after time.

Drink Machine
Silky smooth consistency; homogenized

vs

Others
Separation; lacks consistency

rinse-o-matic

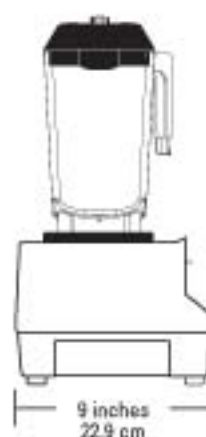

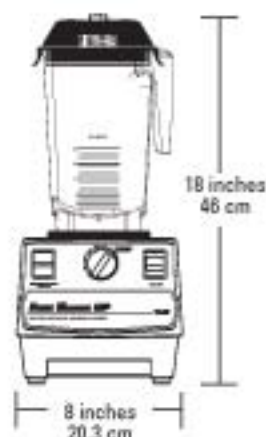

Vita-Mix also offers the Rinse-o-matic® to quickly rinse all your blender containers. Simply place the container over the tower, press down and within seconds residue is rinsed away.

The Drink Machine MP Offers These Distinct Advanced Features

- Automatic Timer turns off automatically – starting on low and kicking into high
- Long stainless steel blades and wide base create a powerful vortex that continually circulates ingredients
- Virtually unbreakable, patented polycarbonate container pulls ingredients into the blades
- Flexible 2-piece lid with removable plug for adding ingredients while blending
- Metal-to-metal drive coupling for high speed drink production
- Heavy-duty 2+ peak hp motor* engineered for demanding foodservice operation
- Blends as little as 10 oz. / 0.28L with same consistency and quality as a full 32 oz. / 0.9L load
- Advanced technology motor designed to resist overheating or motor burnout
- Easy to clean front panel has moisture shielded switches

* Varies with voltage
