

Deliver the Delicious Taste of Nature™ to your customers!

We are pleased to introduce an **All Natural and Organic Soup & SERVER Program** designed to help you grow sales and profits throughout the day.

The Pacific Natural Foods “Natural Advantage:”

- Convenient Heat, Hold, and Serve Unit
- No Additional Refrigeration Needed
- Easy to Use and Clean
- Minimal Waste

Here's how it works:

- Simply purchase either the Server Twin or Server Triple food warmer.
- **Upper Midwest Gourmet** will provide you with product equal to the price of the soup server.
- Your free product pays for your new soup server! We will also provide flavor cards and necessary in store signage.

Pacific Natural Foods' soups are great tasting and healthy additions for your menu, including delicious flavors such as **Roasted Red Pepper & Tomato**, **Cashew Carrot Ginger**, and **Butternut Squash**. All we ask is that you continue to support us for at least the next 12 months. Different soup server or kettle configurations are available upon request.
